

Welcome Note!

It is a pleasure to send you NED QEC's first news letter of 2015. We hope to make this a regular feature, and are looking forward to your feedback and comments. Its purpose is to publicise QEC activities among students and faculty members of the University.

Introduction:

NED University of Engineering & Technology is among the oldest institution of engineering education in Pakistan. It is one of the first higher education public sector engineering institution, who realised the importance of quality management and procedures in engineering education. With this vision, NED University opted for ISO-9001 certification in 1998 and finally got certified in 2002. NED University is about to complete a decade of providing engineering educa-

tion, following rigorous standardised quality management procedures, to meet the satisfaction of their customers (i.e. students in particular and industry in general).

After the advent of Quality Assurance Agency of Higher Education Commission (QAA HEC), NED University also adopted their requirements related to quality in education along with already in practice ISO Quality Management System.

QEC Objectives:

Quality Enhancement Cell (QEC) is responsible for the review of quality standards by auditing academic standards and the quality of teaching and learning in each subject area.

The core objectives of QEC are:

i) To ensure quality education at the University as per NED University Quality Policy.

i) To review quality standards and the quality of teaching and learning in each subject area.

ii) To ensure the accomplishment of the requirements of Accreditation Councils and Regulatory Bodies.

iii) To ensure that the quality and standards for the award of degrees are of international standards.
